

# Girish Kor

Software Engineer

Wada, Palghar 421303 | +91 7798668882 | [girishkor5@gmail.com](mailto:girishkor5@gmail.com) | [girishkor.dev](https://girishkor.dev) | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Self-driven Software Engineer with a robust foundation in full-stack development and a specialization in the modern JavaScript ecosystem (React, Next.js, TypeScript). Proven track record of enhancing system performance and boosting user engagement through scalable architectural solutions. Passionate about developer tooling and open-source contributions, with a keen eye for creating intuitive, accessible UI/UX designs.

## EDUCATION

**Smt. Indira Gandhi College Of Engineering, Ghansoli**

*B.E. Computer Science Engineering ( IOT & CS )*

**Viaswatmak Om Gurudev College Of Engineering, Mohili**

*Diploma in Civil Engineering*

Navi Mumbai, Maharashtra

2021 – 2024

Shahapur, Maharashtra

2019 – 2021

## EXPERIENCE

**Stoofers IT Technology Pvt Ltd**

*Frontend Developer*

Remote

2025-06 – 2025-10

- Spearheaded a complete UI/UX redesign of the flagship e-commerce platform, leading to a measurable 25% increase in user engagement metrics.
- Established a standardized internal design system using React and Tailwind CSS, improving development velocity and ensuring accessibility compliance (WCAG 2.1).
- Optimized critical rendering paths and implemented code-splitting strategies, effectively reducing the application's initial load time by 35%.

**Connectia Technology**

*Full Stack Developer*

Remote

2024-06 – 2025-10

- Architected and maintained a high-traffic customer relationship management (CRM) system using React.js and Spring Boot, optimizing data retrieval queries to reduce latency by 40%.
- Designed and deployed secure, scalable RESTful APIs to enable seamless real-time data synchronization between frontend interfaces and microservices.
- Implemented a comprehensive suite of unit and integration tests, achieving 85% code coverage and significantly reducing production incidents.

## PROJECTS

**Stoofers: Discount App Platform** | *React, Lenis, Tailwind*

[Demo](#) | [Repo](#)

- Architected a responsive web application capable of aggregating and filtering real-time discounts from over 500 distinct brands.
- Engineered a glassmorphic UI with fluid, animations using Framer Motion and Lenis to enhance visual appeal and interactivity.

**Drag&Drop UiUx Builder** | *React, Tailwind, Redux*

[Demo](#)

- Developed a customizable visual site builder that empowers users to construct web pages via a drag-and-drop interface.
- Built a custom AST-based code generation engine that instantly exports visual designs into clean, semantic React, Vue, Svelte, or Angular code.
- Implemented complex state management using Redux to handle undo/redo history and real-time component property editing.

**Auto Dep Installer** | *Javascript, VS Code API*

[Demo](#) | [Repo](#)

- Created a productivity-focused VS Code extension that automates dependency management for JavaScript/TypeScript projects.
- Designed a parsing algorithm to detect missing imports and automatically update package.json, reducing developer setup time.
- Achieved over 865 downloads and maintained a 5-star rating on the Visual Studio Marketplace due to reliability and ease of use.

## TECHNICAL SKILLS

---

**Languages/Technologies:** JavaScript / TypeScript, React / Next.js, Java / SpringBoot, MySQL / MongoDB, Docker / Kubernetes, CI/CD Pipelines, System Design, Tailwind CSS
